The Soldier type Zane playstyle. Also keep in mind brain freeze can proc calm cool and collected even if the enemy doesn't freeze every time. Your barrier is good defense meaning you can tank at times. 1-5: 5 Adrenaline (make sure you wear small quick recharge shields) 6-10: 5 Brain Freeze (use multipellet weapons such as shotguns. Damage won't matter if you never die. It's a good idea to focus around your 2 favorite action skills, but a very cool trick is pulling out your 3rd action skill while the other two are on cool down. SNTNL/Barrier - everytime you throw your barrier, pick it up. For all these leveling guides, we will breakdown each 5 levels until your first capstone, and then we have alternate skill trees for going into either other tree. I do have to mention this build is very bad in the endgame. Does lots of damage throughout the first play through but doesn't offer much utility. Once you are fully leveled, then swap. Whichever route you choose to take, it's a written guide for it. And it's possibly one of the most unique/fun builds. He is very accurate with precision weapons and will actually freeze enemies for you. Disclaimer: The best thing to do for Zane for the story is to go the Handsome Jack/DLC ASAP, get a seind dead class mod, then continue the story. The hellshock was buffed recently and seems pretty good now too. COV launchers like the shredda and chukka are some of the best options early on. When starting your game as Zane you have 3 choices to make. From levels 1-30 you can basically play however you want and you'll get through the story fine meaning you can find out what you like the best. You can also use class mods with violent momentum, once you unlock super sonic man. However a lot of people don't have DLC, or want to play the base game first, so. This leveling guide is devoted to the base game. Keep in mind Zane is very versatile, you can easily use all 3 CCC PAG POTS. elcnubrac o lisekS le omoc sanolc samra rad sereuiQ. n'Áices adac eel ogeul .enaZ ed selobr: 3 sol erbos rednerpa aesed iS. ohcum noc otrorav ejanosrep im se lã á é º fo to dnik NNKAC SSALG asks DNA nur eht .et Silt Ehat Ehat Silt saicarG: n'Áicca ed dadilbah adnuges al ed n'Áicelle us noc odadeceler y oliunqart riurtnoc e abaca ,etnemacis: 35 LVL arap .nolc ut rarepcur arap ogimene na a ralegnoc ogeul .n'Áicca ed dadilbah ed selitneg sut sadot ravitca arap regnaBleppoD sasu ,etnemacis: 35 .satam sol sarnem racata n'Árdop on y detsegu soqimene sotiniñi arap n'Áicneted ed opnac us esU .sasoc ed n'Átnom nu etam eug aje d sodip: Áise setehoc ed serodaznal sednary senolc sut a elad .larberoc n'Áicalegnoc al ed s'Áupsed esah ogeuj le ne enaZ ed sasoredop s: Am sedadilbah sal ed anu sE .n'Áicca ed dadilbah arecret al sacas secev a ednod ogeuj ed olitse le etnemavitinifed se etsE .tik us ne lit: Ásrev s: Am n'Áicca ed dadilbah al .sonugla o etinaN se n'Áicpo rojem arecret al .raguj areuiq n'Áicca ed dadilbah arto © Aug ed odneidneped senoicairav sod noc ri somedop 35 LVL arap laesed ol Ása is oediv ed oiralumrof le ne otse rev vedup n'Áibmat y reel arap sedetsu a saicarG: .rotuceje le etnemelbaborp se lohr: Á etse arap esalc rojem al ed DOM IE.
