It has different modes such as Co-op, Survival, and Multiplayer. PLUS the developers actually care about the game and work on it sometimes and they actually put effort into it which not many mobile devs do which makes it better and best of all they didn't add any ridiculously over powered weapons the ak-47 is accurate to its power and accuracy and everyone could have the same weapon AND the starter gun is perfectly balanced with accuracy and power which makes this a good game It's fun but sometimes when you play a game a minute pass and later you would go back to the main menu and it's hard to get the daley task to get gold bs cause I just started I only finished the 80 kill but I didn't finish the others cause I have to buy weapons to finish the task I'm just saying that it's hard and there was not enough players in servers it's really bad I hope there would be more players in servers and why does all of the weapons have to take so long to save up (and cloths) to buy it! Why The developer, Rustom Davletshin, indicated that the app's privacy practices may include handling of data as described below. View all reviews Looking for a software writer career launch?
